REMARKS ON Supplemental PRELIMINARY AMENDMENT

Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In conjunction with the filing of the present application, and prior to an initial Official Action on this matter, and in response to advisory communications by telephone with the Examiner, please amend the above-identified application as provided and consider the following remarks as follows:

REMARKS

There was a clerical error in the initial filing of the present patent application. Several documents, including the transmittal letters, Application Data sheets, specification, claims and drawings, were mixed with a concurrently filed application. The identity of the inventor, title, and drawings were incorrect.

Applicant respectfully submits the present Supplemental Preliminary Amendment to correct the clerical error. It is important to note that all documents and information were received by the U.S. Patent and Trademark Office in a timely manner; however, the documents were just not

correctly labeled. A new Declaration/Oath and a new Application Data Sheet are provided herewith for further clarification.

Applicant notes that the present application having U.S. Serial No. 10/688185 is for a motor by Cheng-Fang HSIAO. The documents and information have been mixed with another concurrently filed application. The other mixed application is U.S. Serial No. 10/687115, which is for a cluster lamp by Hung-Chi TSAI.

The present Supplemental Preliminary Amendment corrects the clerical error by now including the proper drawings and application information for the motor (10/688185). A new Declaration/Oath with the proper inventor is also now included. Although, it is important to note that the correct Declaration was timely filed in the other file. A new Application Data Sheet also corrects the other biographical information. Please note that the priority claim applies the motor application (10/688185), but the certified priority document was previously submitted with the incorrect serial number. Please transfer the priority document to the proper serial number.

The present Supplemental Preliminary Amendment has been entered for the purpose of placing the application into a proper format for consideration by the Examiner. No new matter has been added by these amendments because the matter was already filed, but associated with the wrong file. In any case, a new Declaration/Oath is enclosed herewith having the correct information. Any additional late charges or fees may be paid by charging Applicant's attorney on Deposit Account 080879.

Please notify Applicant's attorney of any additional requirements for correcting the clerical error and switch of documents between the two files. If any adjustment to the official filing date is required, then please provide adequate notice.

Additionally, a Request for Corrected Filing Receipt is being filed concurrently herewith.

Applicant respectfully requests that the present Amendment be entered prior to an initial Official Action on the present application.

Respectfully submitted,

Date

7.19.05
